EDUCATION

Diploma in Computer Science

Institution: Riara University   (January 2023 - Ongoing)

I am currently pursuing a Diploma in Computer Science at Riara University, where I am gaining comprehensive knowledge and practical skills in various aspects of Computer Science and Technology. I have completed a diverse range of coursework which has equipped me with a solid foundation in fundamental computing principles, including the study of Computing fundamentals, Data Structures and Algorithms, Computer Programming, Web Development, Database Management using SQL, and Object-Oriented Programming in Java and C++. I am also part of the RU-i Tech club and the Music & Dance club.

CERTIFICATIONS

Software Development Program

Institution: Power Learn Project   (June. 2022 - Sept.2023)

I enrolled at the Power Learn Project, a 16-week program of intense training in software development. Self-paced, peer-to-peer learning experience in which I was able to gain a comprhensive understanding in different programming languages i.e PHP, JavaScript, Python, Django, Dart|Flutter. It also created networking opportunities to collaborate and share out startup ideas.

Programming Essentials in C

Institution: Cisco Networking Academy   (Jan. 2023 - April .2023)

I am able to accomplish coding tasks related to the basics of C programming and understand the programming techniques, customs and vocabulary used in the C Programming language.
